

OPTIMA CASH DRAWER C-4141

Reliable & Secure

Optima's C-4141 are cost effective cash drawers that integrates seamlessly into any retail or hospitality environment with a standard printer communication interface (Cable included). The C-4141 cash drawer has a three-function lock system and can accommodate Canadian, United States, and Latin American currency. With an all-metal construction, the Cash Drawer is engineered to be secure and reliable to ensure your cash is always protected.

High Grade Materials

The PCC cold rolled steel plated, and powder coated shell withstands heavy usage in busy retail & restaurant environments. The cash clamps are also coated with SECC-N5 electroplated zinc to protect it from rust and corrosion.

Adjustable Coin Tray

The tray coin holder features adjustable separators to suite merchants' personal preferences.
